

SIoux VALLEY **ENVIRONMENTAL**

SVENCHLOR CHLORINATION EQUIPMENT

**Sioux Valley Environmental has been building
Chlorination Systems since 1978.**

SVENCHLOR CHLORINATION SYSTEMS are built to meet the unique requirements of your application. SVENCHLOR SYSTEMS can be as small as a single 150-lb. cylinder or as large as multiple ton cylinders. SVENCHLOR SYSTEMS can include Auto-Switchover Systems, Scales, Flow Proportional Equipment, Gas Monitors and One-Piece or Modular Chlorination Buildings.

Sulfur Dioxide, Ammonia and Carbon Dioxide Systems are also available.

Whatever your needs Sioux Valley Environmental can provide the complete package.
