

# SVENINJECT CHEMICAL INJECTION VALVES

**SVEN manufactures SVENINJECT Chemical Injection Valves for all applications. SVENINJECT Valves insure that the chemical is injected directly into the middle of the flow for rapid dispersion. Pictured above is a 1.5" Corp Stop with a 1" PVC Nozzle w/1" FPT Connection. In the middle is a 3/4" Corp Stop with a 3/8" PVC Nozzle w/1/2" FPT Connection and below is a 1/2" Ball Valve with a 1/4" Nozzle.**
