SVENMIX TANK AND MIXER

DESCRIPTION

SVENMIX Chemical Mixing systems can be designed and built to meet the mixing demands of almost any chemical.

Polyethylene and Fiberglass tanks from 5 to 50000 Gal.'s are available with a properly sized SVENMIX HS or SVENMIX LS MIXER.

SVENMIX MIXERS are equipped with Stainless Steel shafts and impellers. Available horsepower ratings of 1/15 to 5.0 and speeds of 1750 to 10 RPMs. Steep Pitch Prop, Axial Flow Turbine, and the unique SVENMIX High Turbulence Impeller are options.

Variable Speed mixers and High Torque mixers are built for special applications.

SVEN can also match the proper chemical injection pump to any application.
